

Resources Identified for Ambulatory & Community-Based Nursing Audience

The below resources have been identified through needs assessment feedback and evaluation data, with the assistance of SPN's Director of Programs. These resources are available at no cost to our SPN nursing audience. Nurses working in an ambulatory centers or community based hospital may find the most value in these topics as you care for a pediatric patient base.

Position Papers – free digital resources updated regularly

These position papers provide the ambulatory pediatric nurse with resources and facts to support the family and patient education.

- Importance of Immunization
- Tobacco Exposure in Children, Adolescents, and Families
- The Role of the Pediatric Nurse in the Promotion and Protection of Human Milk and Breastfeeding
- Firearm-Related Injuries Affecting the Pediatric Population

Informational Papers – free digital resources updated regularly

The Patient Bill of Rights has been updated and applies to all patient care settings

- SPN Informational Paper: Pediatric Bill of Rights

This informal paper provides the evidence and information to guide the ambulatory nurse in the discussions of immunizations

- SPN Informational Paper: Immunizations

Additional Resources:

Ambulatory Group in The Hive – free, just requires an SPN website account for access

SPN Pediatric Pre-licensure and Residency Core Competencies: Use these Competencies when building a new nurse orientation

Pediatric Nursing Excellence Model: Use this model to enhance your nursing practice.

Gun Violence Resources: Gun violence is the leading cause of death in children and teens. How can nurses make an impact on gun violence? These resources can provide some ideas to start the conversations.

Transition Care Checklist: Using the resources found in the checklist and on the Transition Care webpage, assist with comprehensive healthcare transition.
